

The only one Part-time Musician

採譜:Lele

Since you've stepped into my life
Like someone brought the vision to the blind
Every time that you smile
Like the sun that shines in the midnight sky
you are the only one you are the only one
When you stand by my side
I want to hold you tight and stop the time
Anything that makes you cry
im gonna find the way to make your tears run dry
you are the only one you are the only one

You are the only one who can rewrite my story
the only one who can rearrange my heart beat... is you
you are the only one who can remake the world I've seen
the only one who can replace my empty dream...is you

If one day we have to say good bye
My love will belong to you until the day I die
